Set up your display

Box to broadcasting in about five minutes. You do the whole thing from your phone.

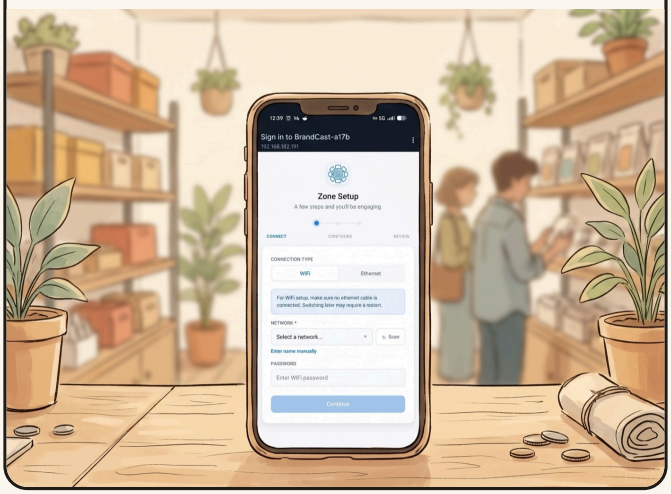

1 **Plug it in.** Slide the Player out of the box, connect the HDMI cable to your TV, and plug in power. The screen wakes up on its own.

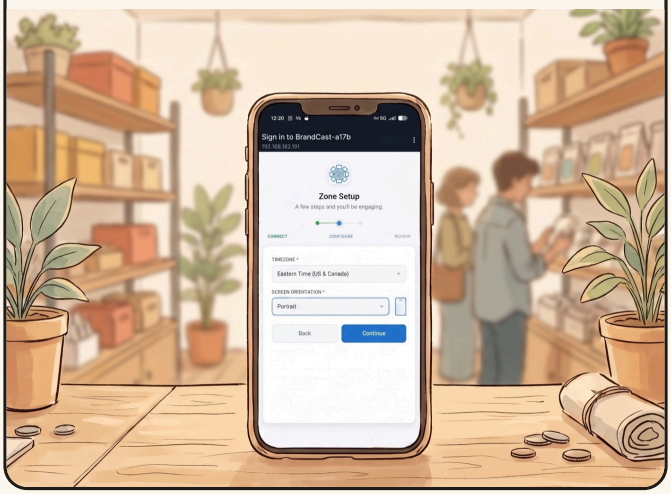

2 **Grab your phone.** Point your camera at the QR code on the screen, or join the Wi-Fi it shows. The setup page opens on your phone.

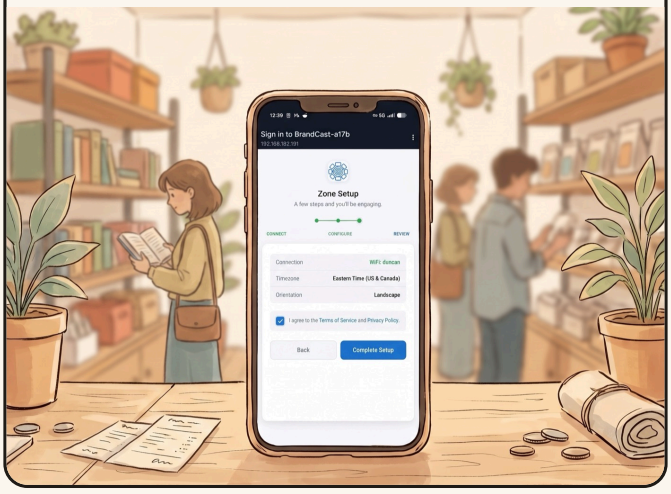

3 **Connect.** Pick **WiFi** and choose your network (or switch to **Ethernet**), enter the password, and tap **Continue**.

4 **Configure.** Set your **Timezone** and your **Screen Orientation** (Portrait or Landscape), then tap **Continue**.

5 **Review & agree.** Check the summary, tick **I agree to the Terms of Service**, and tap **Complete Setup**.

✓ **You're live.** The display updates itself, shows a short code to pair it to your account, and starts broadcasting. Welcome to the wall.
